

Éter Anima

IdunVit

The intelligent cellular formula to maintain the structure and youth of
your body from its deepest origin.

“ *It's not superficial aesthetics.
It's biological architecture* ”

THE ESSENCE OF IDUNVIT

Creams and makeup only cover the passing of years. Our method focuses on restoring the firm foundation of your skin, reversing cell oxidation, and activating NAD+.

Why do tissues age?

1. Broken Support

The collagen networks that act as elastic beams in your skin wear down, causing it to lose its firmness and start to sag.

2. Daily Oxidation

Daily exposure to sun and pollution generates small harmful molecules that "oxidize" and weaken your cell walls.

3. Energy Depletion

Your cells' internal engine weakens over the years, causing them to lose the ability to regenerate and repair themselves effectively.

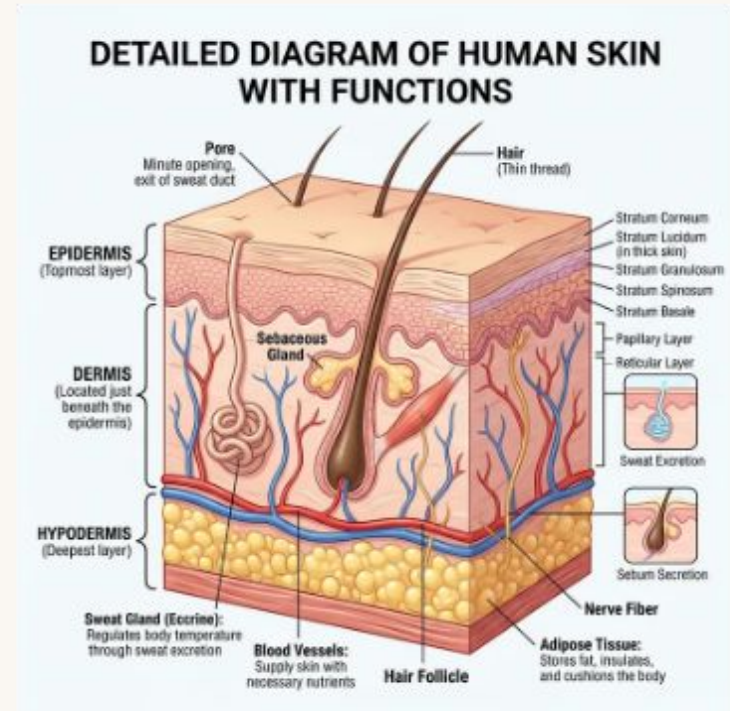

The Skincare Dilemma

The Surface Barrier (Creams)

Human skin is designed to be impermeable. The active ingredients in creams almost never manage to cross this external protective barrier.

The Internal Highway (IdunVit)

When taken orally, nutrients travel through your circulatory system to the deep factory where new layers of your skin are born and nourished.

The Synergy of the Three Pillars

The Structure

Collagen + Hyaluronic Acid

They provide the essential building blocks to plump the skin and lubricate your joints.

The Shield

Astaxanthin + Resveratrol

They protect the body from sun damage, stress, and daily oxidation.

The Spark

CoQ10 + Catalysts

They ignite the cells' energy engine so they can absorb nutrients and actively regenerate.

The Power of Hydration and Volume

Highly Absorbable Collagen (310 mg)

It works as the mesh that gives shape, elasticity, and physical support to your body tissues, preventing sagging.

Concentrated Hyaluronic Acid (60 mg)

It acts as a biological sponge that absorbs up to a thousand times its weight in water, keeping your cells hydrated and plump.

Your Shields Against Oxidation

- ⚙️ **Astaxanthin (Internal Sun Protection):** The natural guardian that stops collagen destruction caused by the sun's ultraviolet light.
- 🧬 **Resveratrol (The Rejuvenation Gene):** It activates natural cellular defense proteins that shut down signals of fatigue and wear. It activates SIRT1, a NAD⁺-dependent enzyme.
- ♥️ **Pomegranate and Acai (Anti-inflammatories):** They purify your body, improve vascular health, and ensure that nutrient-rich blood reaches your skin.

The "Welder" Rule

Collagen Is the Brick

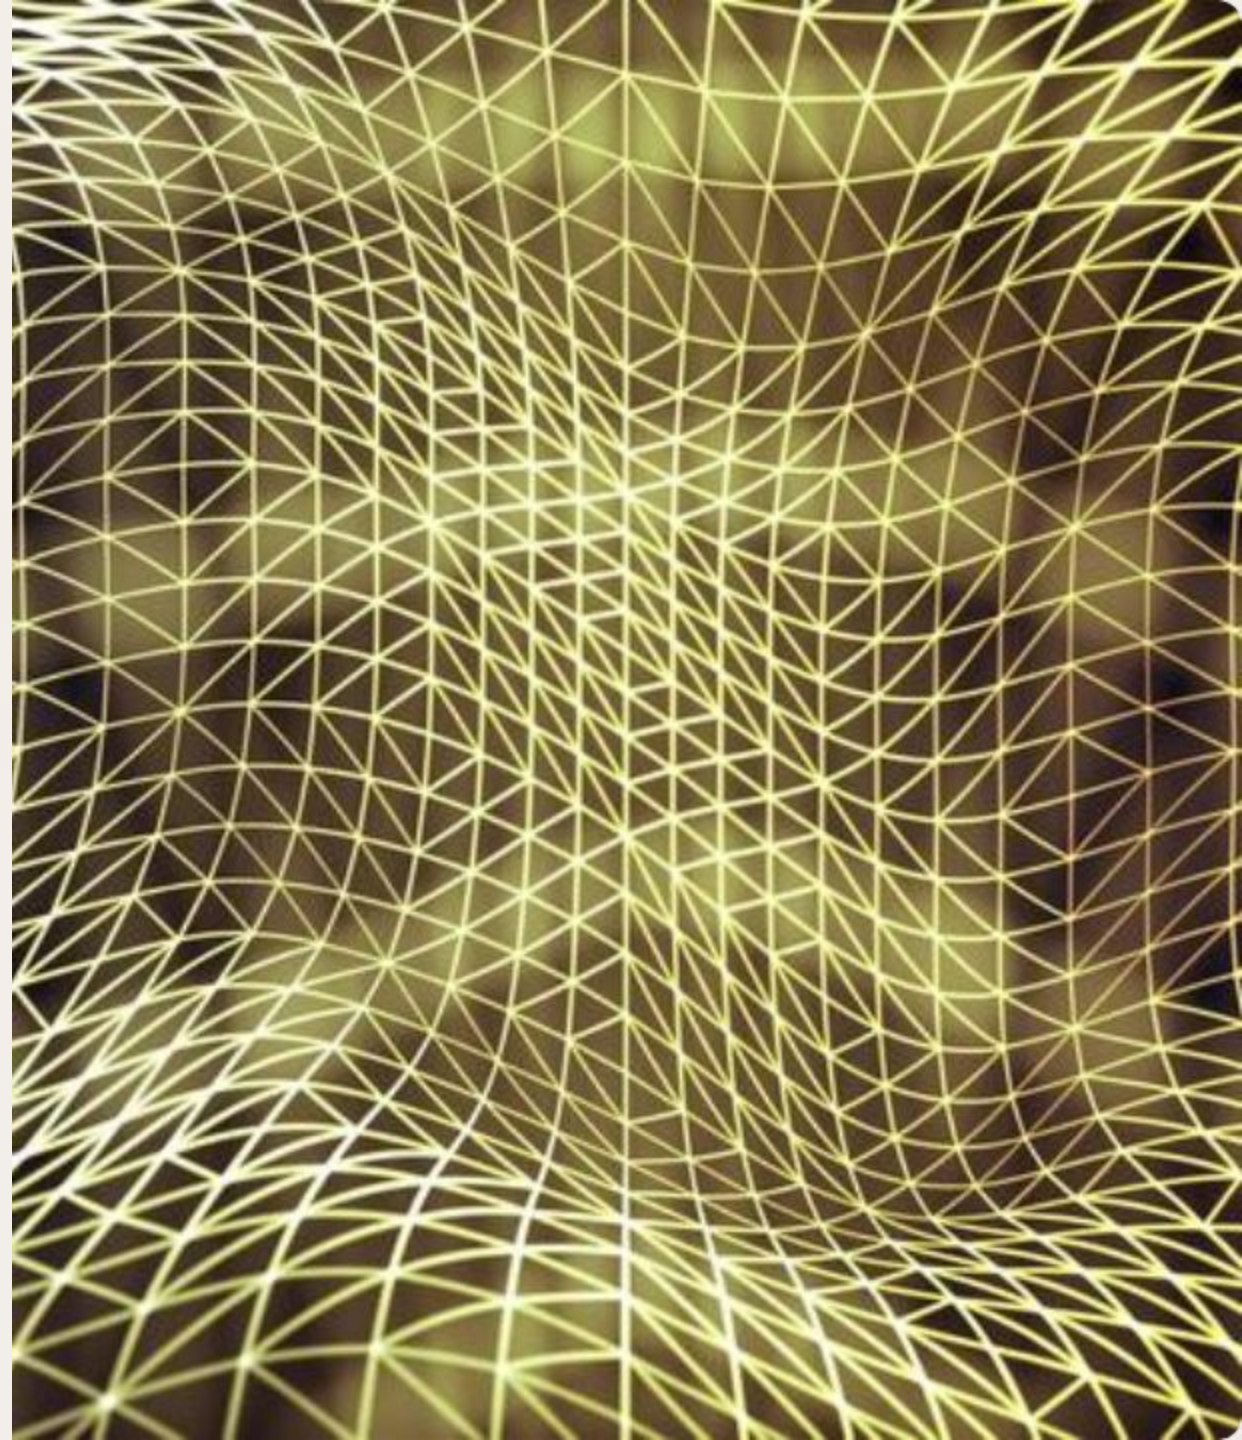

On its own, it's unstable. It can't form a solid wall without a binder.

Vitamin C Is the Cement

It acts as the biological welder. Without it, collagen won't bond and the body simply discards it.

The Synergistic Effect

The precise combination of ingredients ensures strong nails, full-bodied hair, and truly elastic skin.

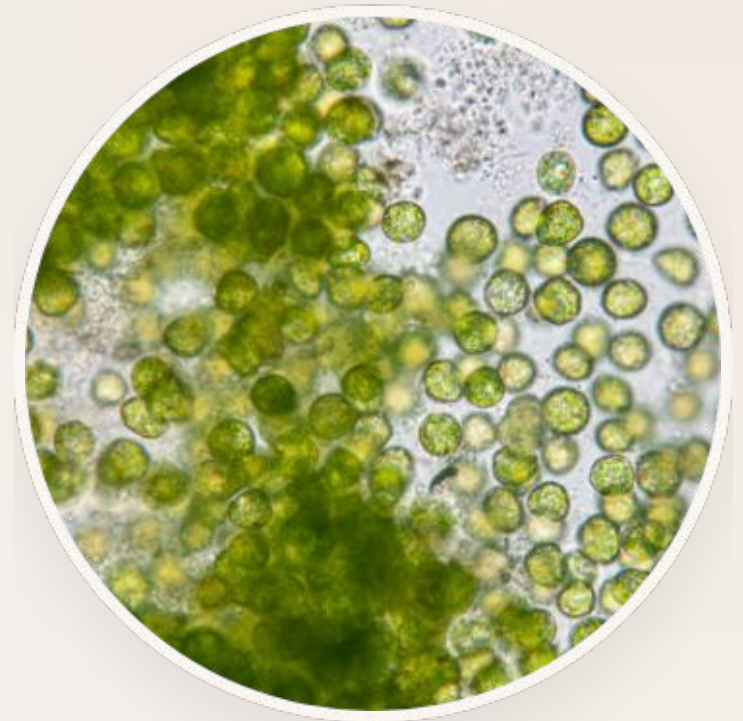

Coenzyme Q10: Inner Vitality

A Battery for Your Cells

To repair wear and tear and build new elastic fibers, your cells need a massive amount of daily energy.

The CoQ10 Spark

It works like a natural energy charger. By powering up your cells, they absorb nutrients and kick-start deep rebuilding from the root.

Why Choose IdunVit?

Cellular Action	Basic Common Collagen	IdunVit (Advanced Formula)
Sun & Oxidation Defense	None (Only provides simple proteins)	Extreme (Astaxanthin & Resveratrol)
Cellular Energy Recharge	Nonexistent (Cells remain fatigued)	Active (With Coenzyme Q10)
Hydration & Volume Effect	Negligible (Doesn't retain moisture)	Guaranteed (Pure Hyaluronic Acid)
Skin & Hair Absorption	Low (Most is lost)	Total (Locked in thanks to Vitamin C)

Your Path to Balance

Week 1

Energy Boost: You feel greater overall body energy thanks to CoQ10 activation.

Week 4

Deep Hydration: Your skin retains moisture far better, feeling elastic and less dry.

Week 8

Tone & Firmness: Collagen locked deep inside visibly reduces fine lines on your face.

Week 12

Total Defense: Nails and hair strengthened from the root and noticeably lubricated joints.

INTELLIGENT CELLULAR LONGEVITY

IdunVit

The rebirth of your purest cellular structure.
