

Éter Anima

Nefer

The architecture of mental agility. Discover how to clear brain noise, ignite your deep focus, and boost your memory without the crash of common stimulants.

Is your mind overwhelmed?

The great challenge of modern daily life is fatigue and information overload.

A brain with a thousand open tabs

The Overloaded Mind

Work stress and constant notifications fill your mind with "noise." Your brain's wiring gets overwhelmed, leading to quick forgetfulness, lack of focus, and that annoying brain fog at the end of the day.

The Nefer Solution

Instead of artificially forcing your brain to run faster, Nefer provides the specific nutrients that clear the path for information, allowing you to think with total clarity and freshness.

The three pillars of your focus

1. Focused Calm

Saffron + Theanine

They quiet mental noise and everyday anxiety, allowing you to concentrate without feeling jittery.

2. Strong Connections

Lion's Mane

The smart mushroom that acts as the architect of your neural network, helping create and protect new memory pathways.

3. Fresh Oxygen

Ginkgo + Vitamin B6

They open the way for blood flow in your head, delivering a rush of oxygen so your thoughts travel faster.

The architect of your connections

Insulating the mind's wiring

Lion's Mane naturally stimulates the production of "myelin," which acts exactly like the plastic coating on your brain's electrical wires, ensuring information travels without short-circuiting.

Strong cells and agile memory

It helps your brain repair itself from the daily wear and tear of stress, noticeably improving your short-term memory.

| Alert calm without drowsiness

Silencing the background noise

Everyday stress creates an annoying "buzz" in your brain that keeps you from thinking clearly.

Pure saffron and L-Theanine work by shutting off that background noise and task-related anxiety, allowing you to enter a pleasant state of focus: with your mind fully awake and your body relaxed.

Oxygenation and mental speed

A wave of fresh air

High-purity Ginkgo Biloba gently improves blood circulation in your head, ensuring your brain receives the oxygen and nutrients it needs to perform at its best.

The swift messenger

Inositol works as an assistant that speeds up the electrical communication from one neuron to another, helping you find answers faster.

The direct highway to your mind

100%

The Black Garlic and Piperine escort

Many of the common nutrients or herbs we take are destroyed in the stomach or filtered out before they can reach your brain.

Nefer includes Black Garlic extract and Piperine, which act as "high-speed escorts," opening your brain's biological customs to ensure that all active ingredients get in and are fully utilized by your neurons.

The difference from regular caffeine

Benefit in your day	Common Stimulants (Coffee or Pills)	NEFER (Ether Anima Formula)
Type of energy	Nervous, artificial energy with alertness spikes	Steady mental clarity that lasts
Side effect	Irritability, rapid heartbeat, and subsequent "crash" or fatigue	Relaxed focus , no energy crash at the end
Stomach absorption	Harsh on the stomach, fast but poor absorption	Maximum gentle absorption guided by natural escorts
Brain health	None (Only temporarily masks tiredness)	Repairs and strengthens your memory connections

COGNITIVE SOVEREIGNTY WITHIN YOUR REACH

Nefer

Limitless clarity. Focus without fatigue. A mind at peak flow.
